JOY OF LIFE – THIS IS SALJOL

At Saljol, we develop premium tools for an easier life. We are experts with over 20 years of experience in the industry. At the same time, we are a young and young-at-heart, motivated team with a penchant for that certain something and a love of our Bavarian roots. Not a large corporation, but a small start-up where everyone makes their contribution every day to make our customers' lives a little more pleasant.

Products may differ from the illustrations, version 08/2022

JOY OF LIFE – THIS IS SALJOL

As a manufacturer, we put a lot of heart and soul into product development.
For products that make independent everyday life possible.
For solutions to live at home for as long as possible.
With high-quality materials and a lot of attention to detail.
For fewer falls in everyday life. For safety, freedom and dignity.
For more joy of life.

THE MAIN CHARACTERS

These are our Saljol faces: Sabine, Werner, Regina, Mike and Valentín.

They convey the fun of life and show how our products are used. The right aids make life worth living again. They give freedom, security, self-confidence and score points with their chic design – this is also shown by the personal experiences of our “encouragers”. At Saljol, encouragers are the customers and users who have bought our products because of a disability or impairment and use them every day. They are encouragers because they share their story and want to encourage everyone to get back their own individual enjoyment of life. Our encouragers Marietta, Bidi and Peter are “real” people with an important mission: So much is possible with the right aid!

Let them inspire you!

ALLROUND ROLLATOR

WITH YOU ALWAYS AND EVERYWHERE

Imagine a companion for all situations. For a shopping tour. A trip to the countryside. Or a picnic. A companion that can do it all! Here it is: the Saljol Allround Rollator made of aluminium.

LIVE THE DAY

Get your book or painting materials, put fresh fruit and a drink in the practical rollator bag, which can carry up to five kilograms, and off you go to the nearby park. Imagine sitting on the bench, reading a good book or painting the beautiful landscape you see in front of you.

SIMPLY ENJOY

You go on an excursion with your partner or you meet dear friends – the Saljol Allround Rollator accompanies you. If there is no bench nearby, you activate the parking brake and sit comfortably on the seat net. The backrest supports you. Your arms rest comfortably on the cork-TPE armrests – you can regain strength. Enjoy the view of nature and a good conversation.

DARE TO TRY SOMETHING

On the way back you have to cross a country lane? No problem! Since the Allround rollator has extra-large tyres at the front, you can push it comfortably along field and forest paths. The shock-absorbing all-terrain tyres make your ride comfortable.

... AND ALWAYS GET HOME SAFELY

Spontaneously, you feel like doing some shopping for dinner? Sure! With the Saljol Allround Rollator you are flexible. Due to its low weight of only 6.4 kilograms, the aluminium rollator can be easily loaded into and unloaded from the boot. You treat yourself to fresh vegetables, a snack from the bakery and the butcher. It's already dawn. Thanks to more than 30 reflectors, other road users see your rollator and you walk safely to your car or home.

"HOW NICE TO SEE YOU"

YOUR NEW DARLING

What makes the Saljol Allround Rollator so special?

- Easy to convert: from standard two-hand brake to one-hand simultaneous brake
- Walk comfortably: extra-large front tyres absorb shocks and roll easily on any ground
- Pleasant to touch: Handles made of cork-TPE provide a comfortable feeling on the hands

CARBON ROLLATOR

FEATHERLIGHT EYE-CATCHER

Do you like going to the café? Or to the theatre? Do you like shopping and meeting your loved ones? Or going on a trip with your sweetheart on Sundays? The Saljol Carbon Rollator is your chic partner!

TIME FOR SOMETHING SPECIAL

Every Sunday... it can be something special! Maybe you don't have a vintage car in your garage. Any car or bus will take you to the lake or to your favourite place. At only 5.6 kilograms, the Saljol Carbon Rollator is a real lightweight and can be stowed in the boot quickly – along with strawberries, grapes and a bottle of sparkling wine.

OH, HOW BEAUTIFUL IT IS!

Arrived. At the favourite spot. You walk onto the jetty by the lake and gaze into the distance. Sit down on the comfortable seat net, rest your arms on the armrests made of cork-TPE and enjoy. The water shimmers in wonderful shades of blue and green. Birds chirp. Children laugh. Your companion has prepared a little surprise.

MY SUPPORT EVERY DAY

Being grateful – and showing it. To the dear people around us. Through gestures, small attentions and that certain something. The Saljol Carbon Rollator is your certain something. A support every day. It is strong, yet manoeuvrable and narrow, and can be quickly folded up and carried up a few steps. Downhill, the sliding brake provides safety and works like a gear shift. Going uphill is also easier thanks to the low weight. Whether alone or in company – the Saljol Carbon Rollator fits perfectly!

“MY FAITHFUL COMPANION”

CHIC BY YOUR SIDE

What makes the Saljol Carbon Rollator stand out?

- Easy to load: quickly foldable and easy to transport in the car boot
- Walk safely downhill: practical grinding brake reduces speed
- Pleasant to use: Chic and modern, at the same time incredibly practical and safe

COMING SOON: EBUDDY EDRIVE

Encourager Marietta

“MY WONDERFUL SPEEDSTERS ACCOMPANY ME AT HOME AND ON ALL MY VENTURES.”

This is Marietta. She suffers from HMSN/CMT – hereditary motor-sensory neuropathies/Charcot-Marie-Tooth. A neuro-muscular disorder that results in movement limitations. She doesn't let it get her down. On the contrary: despite pain, she is often and gladly on the road and has equipped herself perfectly for her undertakings:

**“This is my personal “vehicle fleet”. Do you need it? Yes, of course! I do!
You drink coffee, water or wine from different glasses, don't you?”**

The anthracite colored runabout is my helper in the house. The beige runabout made of aluminum is for small walks in the area, since it is perfectly suitable by its large front wheels and the one-hand brake. And the blue carbon runabout is my go-to for small city strolls, fancy dinners, theater and concert visits.

Other people may have countless pairs of shoes – I have three wonderful speedsters that make my life easier and fun too!”

INDOOR ROLLATOR

ESSENTIAL HELPER

Visitors are coming! How nice! Your grandchildren come for coffee because you are the best cake baker? A good friend comes over for a beer? Or wants to help you change a light bulb? Whatever the occasion is – enjoy the time with loved ones! Of course, you'll want to offer drinks or something to eat.

PERFECTLY PREPARED

But you are not so secure on your feet anymore? And you move hand over hand at home from the table to the armchair and to the door frame to get to the next room? Then the Saljol Indoor Rollator is just the right helper for you. Simply place the dishes on the tray and move the cups, glasses, plates and cake to the table safely.

FOR ALL SITUATIONS

The cake baking tin is waiting for its turn at the bottom of the cupboard – you have to get down on your knees to get it? Lean on the stable indoor rollator when you get up and it will be easier for you to stand up! Do you still have to put the washing in the machine? There is also room for the laundry basket on the tray! Your rollator supports you perfectly in the bathroom at the washbasin and when going to the toilet.

Do you sometimes find it difficult to stand when preparing food in the kitchen? And the kitchen chair is so inflexible when you push it close to the worktop? Simply sit on your indoor rollator to prepare drinks and meals.

MY ROCK IN THE WAVES

The visitors are here! What joy! You are having a wonderful time together. Then you go to the bedroom with your rollator, because you have prepared something: A small thank-you gift is already in the bag, which you simply mount to the indoor rollator to transport your presents safely. "Nice of you to come!"

"YOU CAN BE RELIED ON"

COPE WITH EVERY- THING TOGETHER

Why is the Saljol Indoor Rollator indispensable?

- Safe living: you are welcome to lean on it, sit on it and push it
- Multifunctional use: whether in the kitchen or in the bathroom, for transport or for sitting – the rollator is always suitable
- Get everywhere: it is very narrow, manoeuvrable and turns on the spot

Encourager Peter

“I WANT TO BE ABLE TO PLAY WITH MY FIVE GRANDCHILDREN – THAT’S WHAT DRIVES ME. I EXERCISE EVERY DAY FOR THAT AND NOW MANAGE TO WALK WITH THE ROLLATOR AGAIN.”

Our encourager Peter Spender had a stroke. That was in 2015. After eleven months in the hospital and a poor prognosis, he took his recovery into his own hands. “My exuberance drove me,” he jokes. What gave him even more strength: the desire to be able to actively experience his grandchildren. “I can play with my granddaughter Isabell again! And little Felix sits in the basket of my living room rollator. What joy!”

For this – and for his wife Edith – he trained and trains day after day. Peter learned to stand up and walk again. Learned to use the toilet on his own again. And learned to eat by himself again. “I can walk 100 to a maximum of 200 meters with a rollator, and I do that as often as possible,” Peter explains.

For longer distances, he relies on a wheelchair. “I want to say to all people: even if the road is arduous, it’s worth fighting – we enjoy our freedom with a rollator as often and as well as possible!”

With a lot of courage and the feeling of happiness about their regained freedom in their luggage, Peter and Edith even travelled to Dubai!

ROLLZ MOTION PERFORMANCE

MAXIMUM FLEXIBILITY

Do you like to go for a walk in company? But you are dreading the long way back right from the start? The 2 in 1 Rollz Motion Performance rollator-wheelchair is THE solution!

Walk with your companion as far as you like! Enjoy the air, the view, the good conversations! Maybe stop for a coffee. You can look forward to the way back relaxed because the rollator can be converted into a wheelchair in no time.

You sit comfortably and are pushed home. Perfect for all those who are often out and about with loved ones and want to be flexible.

By the way, the Rollz Motion Performance is also foldable, can be transported in the boot and, thanks to the pneumatic tyres, also drives on uneven surfaces or on hard sand. Therefore, it's also perfect for your holiday trips.

rollz

IN ALL SITUATIONS

Why will you love the Rollz Motion Performance?

- Make 2 out of 1: rollator and wheelchair in one, converted in just a few steps
- On the move everywhere: pneumatic tyres cope with any ground
- Enjoy adventures: soft armrests and ergonomic handles offer best comfort

Encourager Birgit

“IN THE BEGINNING IT COSTS A LOT OF EFFORT. BUT ONCE YOU’VE USED THE TOOL, IT MAKES EVERYTHING SO MUCH EASIER. I ADVISE EVERYONE TO GIVE IT A TRY.”

Birgit has always been called Bidi – and has had MS since 1992. At the time, she was only 24 years old. A shock. At first, the disease came in spurts. And Bidi was still able to fulfill her great wish of becoming a mother.

She had five children. And to this day she enjoys spending time with her family. In the meantime, she is dependent on a rollator wheelchair.

“I can no longer go for a walk. My husband encouraged me to use a rollator wheelchair.

At first, I resisted it – but now I think it’s great: my husband drives me, I see a lot, and I don’t have to watch out for tripping! Even when traveling, Bidi had her assistive device with her when they visited their son in Ireland. “We used the airline’s wheelchair service and I was mobile everywhere in Ireland.”

YOU CAN FIND MORE ROLLZ ROLLATORS AT WWW.SALJOL.DE/EN.

RISE AND RECLINE CHAIRS

RELAX AT THE TOUCH OF A BUTTON

You come back from a walk or shopping and want to relax a little? Take a seat and make yourself comfortable in your Saljol Rise and Recline Chair. With a deep breath you can sink into the comfortable armchair. And relax at the touch of a button.

LET YOUR THOUGHTS WANDER

The remote control sticks magnetically to the armchair and is always at hand. At the touch of a button, you “float” into a comfortable reclining position, take the weight off your legs and relax. The reclining position is so comfortable that you can even doze off in your armchair or take your regular nap.

ENJOY THE PEACE AND QUIET

Had enough rest? Getting up now seems almost impossible? Slowly move your armchair first to a sitting position and then activate the rising aid. The seat slowly moves to a forward inclined position and supports you when you stand up. By the way, you can't tell the armchair's functionality by looking at it – as an elegant piece of furniture, it fits perfectly into your living environment due to your choice of colours and fabrics.

Get up with renewed strength
Do you like to eat a few nuts or vegetable sticks when you watch TV in the evening? And drink a cup of tea? Of course, constantly leaning forward to the low living room table is a nuisance! That's why the Saljol Rise and Recliner Chair comes with a practical swivelling table on which you can place drinks, snacks or your book. You always have all the important things at hand.

“THANK YOU FOR BEING THERE”

MY PLACE OF RETREAT

Why is a Saljol Rise & Recline Chair the best choice?

- The best way to relax: sit, lie down, sleep and get up again safely
- Different versions: also available as a mobile armchair and as an armchair with heart balance position
- Useful extras: accessories such as lumbar cushions, head cushions or swivelling tables make the armchair even more comfortable

SHOWER STOOL

I TREAT MYSELF TO THAT

A new morning! You turn to the side, let your legs slide to the floor and slowly sit up in bed. Do you also like to pause for a moment and greet the new day? Grateful for all that was yesterday and joyfully looking forward to today? Maybe you feel your joints or you are in pain – of course, not every day is the same and many people have to struggle with chronic complaints. Every day. We at Saljol know that. And take it very seriously. At the same time, we want to motivate you. To enjoy. To be a little more aware every day.

EXPERIENCE RELIABILITY

The basis for this is that your everyday life at home is as safe and pleasant as possible. With the right aids. You get up and perhaps go to the bathroom with your indoor rollator. The Saljol Shower Stool is already waiting for you there. It turns on the spot – and only on the spot! You appreciate the certainty that you cannot slip away. And you can concentrate on your body care.

FEEL THE ENERGY OF LIFE

The practical hygiene cut-out allows you to wash yourself in the intimate area. In this way, you retain your independence and dignity for as long as possible! Even if you have help in the bathroom, the Saljol Shower Stool is ideal because you can turn on the spot and perhaps continue to wash some parts of your body yourself while the helper showers your back because you can no longer hold the shower head up so well.

SIT COMFORTABLY

By the way, the seat is made of a thermoplastic material. It reflects the heat. So you don't have the feeling of sitting on "cold plastic", you really sit comfortably on your shower stool. Already convinced? No? Then we'll go one better: the Saljol Shower Stool also scores points as a seat in the bathroom or bedroom – when applying lotion, getting dressed and for facial care!

"NO ONE KNOWS ME LIKE YOU"

MY TRUSTED FRIEND

Why is the Saljol Shower Stool indispensable in the bathroom?

- Shower independently: sit safely and warm when the stool turns on the spot
- Move comfortably: your hands are free for shampoo & co.
- Preserve dignity: practical hygiene cut-out makes intimate hygiene easier

WHICH ONE SUITS ME?
